SUMMARY

I'm a recent Computer Engineering graduate with a strong passion for programming. I'm actively looking to improve my skills and expand my experience in the field. I'm dedicated to putting in the effort required to excel and bring genuine enthusiasm to every project I undertake.

SKILLS

HTML	React.JS	C
CSS	Express.JS	C++
JavaScript	MongoDB	Git Version Control System

WORKEXPERIENCE

Alphaus Inc.
Backend Developer Intern   **Jan 2024 - Mar 2024**

Collaborated with a team of 10 members to work on a project to create a data ingestion system using PubSub that processes a continuous stream of input data and performs analysis on it. Created the logic for the process and analysis as a Backend developer which determine their top 3 most expensive services to date, least expensive service to date and the number of messages processed so far.

EDUCATION

Bachelor of Science in Computer Engineering
Bohol Island State University

RELEVANT COURSEWORK

- Programming Logic and Design
- Data Structures and Algorithms
- Operating Systems
- Database Systems
- Software Engineering and Design
- Object-Oriented Programming
- Computer Networks and Security
- Computer Architecture and Organization
- Artificial Intelligence

LANGUAGES

- English
- Filipino
- Cebuano

PROJECTS

Elderlink IoT wearable health monitoring System for Elderly care

- Developed using Arduino IDE for real-time health monitoring system.
- Implemented mobile application for sensor readings.
- Integrated different sensors to have comprehensive features

CERTIFICATION

Responsive Web Design Certificate
Issued by Online Course - freeCodeCamp
Issued on Jun 2024

EXTRACURRICULAR ACTIVITIES

Google Developer Student Club - BISU Main
Bohol Island State University
Member
